

Privacy Policy Fudeks rent a car

Fudeks rent a car respects your privacy and we are committed to protecting personal information you provide us. We would like to introduce you to the following principles according to which our privacy policy is regulated.

Personal data protection policy

We guarantee personal data protection. Collection, keeping, processing and use of personal data is carried out in accordance with the Law on Personal Data Protection ("Sluzbeni Glasnik RS" No. 97/08, 104/09 - other law and 68/12 - decisions US and 107 / 12). Certain provisions of this Law, as well as rights and obligations regarding processing do not apply to the processing of data that are available to everyone and published in public media and publications or accessible in archives, museums and other similar organizations.

Personal information will not be used outside the purpose for which it was collected. All necessary data protection measures have been taken in accordance with established standards and procedures that are necessary to protect data from loss, destruction, unauthorized access, publication and any other abuse.

The data will not be used for purposes that are inconsistent with the Law or in any other way that could be harmful to you, including violating your privacy.

The data provider has the right to revoke the consent for the processing of personal data in accordance with the Personal data protection law.

The data we collect

We collect personal information such as name, surname, date of birth, e-mail address, driver's license details, only when it is voluntarily delivered by offered forms or in other way of communication, for the purpose of providing a car rental service requested by the user.

We also collect information about activities on the website (cookies) and other technical data that are not personal, which enable us to make your visits to fudeksrentacar.rs easier and to recognize you when you return to the website.

The application ensures the security of information you provide through industrial, standardized physical, electronic and control procedures. We use an SSL certificate to increase the security of sensitive data transmission. Inside the application, data is stored on controlled servers with restricted access.

Additionally
